PETITION TO ACCEPT COLOR DRAWING

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to the Notice to File Corrected Application Papers mailed 04/13/2004, and in accordance with 37 CFR § 1.84(a)(2), petition is hereby made to accept a color drawing for Figure 11 in this case. It is respectfully submitted that the color drawing is necessary in this application.

The color is included to show the relationship between the haptoglobin protein, codons, gene and single nucleotide polymorphisms. Applicant believes that a black and white drawing would render the drawing/chart useless.

This petition is being submitted along with the following items:

1. Check in the amount of \$130.00 to cover the 1.117(h) petition fee;
2. Three (3) sets of the color drawing;
3. One black and white photocopy of the drawing; and
4. Preliminary Amendment to amend the specification to insert notice of a color

drawing, as set forth in 1.84(a)(2)(iv).

Furthermore, to fulfill the requirements of the Notice, a complete replacement set of drawings are included in this submission, along with a copy of the Notice itself.

Should there be any other fees, or any credit, associated with this filing, the Commissioner is hereby authorized to charge or credit Deposit Account No. 07-1180.

Respectfully submitted,
